Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In The Original Specification:

On page 8, line 1, change "etc" to --- and the like ---.

In The Amendment Filed 2/22/05:

On page 2, line 24, change "3 and 4, and the like" to --- 4 and 5, and the like ---.

Drawing Corrections

The examiner has approved the following changes to the drawings:

In Figure 1, reference numeral "28" and its corresponding lead line and "Fig. 1" should be redone so that their appearance resembles that of the reference numerals, letters and lead lines of Figure 3 (i.e., not appear to be handwritten as they currently appear in Figure 1).

In Figure 2, reference numeral "32" and its corresponding lead line and "Fig. 2" should be redone so that their appearance resembles that of the reference numerals, letters and lead lines of Figure 3 (i.e., not appear to be handwritten as they currently appear in Figure 2).

In Figure 4, "Fig. 4" should be redone so that its appearance resembles that of the reference numerals and letters of Figure 3 (i.e., not appear to be handwritten as it currently appears in Figure 4). Further, the photocopy marks (i.e., dots) in the figure should be removed.

In Figure 5, "Fig. 5" should be redone so that its appearance resembles that of the reference numerals and letters of Figure 3 (i.e., not appear to be handwritten as it currently appears in Figure 5).

In order to avoid abandonment of the application, applicant must make these drawing changes.

Remarks

The replacement drawings received on February 22, 2005 are not acceptable for the reasons noted above. However, it is noted that the changes made to Figure 3 are acceptable (i.e., the addition of reference numerals "1" and "17" is acceptable).
